

We were in the situation where we needed to completely renovate our office while simultaneously beginning to conduct business in it. We were very impressed by Heim Construction's quality of work, timeliness, and attention to our specific needs. We found the employees (and subcontractors) to be extremely competent, professional, and courteous. Throughout the project, our Heim Project Manager (Dennis Moyer) frequently checked in to ensure we were pleased with the progress and aware of the next steps. The renovated facility is beautiful- everything we hoped it would be.
